Manuel P. Moranha of Mounted Pelice Force Prepably Fatally Injured and His Horse Is Killed Result of Being Struck by Automobile Driven by William and Containing Two Women and Companion Welsh Not in Custody

Manuel P. Moranha, member of the ounted police force of Honolula, was bably fatally injured and his horse as killed, the result of being struck automobile driven by William elsh on the Walkiki road early yeserday morning. Welsh, driving his own ear, was accompanied by a party of joy riders, including two women. Welsh admits his car was going at the ate of thirty miles an hour. After striking the horse and its rider the ear utinued a distance of two hundred and fifty feet before it was brought der control. The occupants then returned to render aid to the unconscious and bleeding officer who lay to one side of the road a distance of fourteen feet from where he had been struck by the automobile. The horse was nearly fifty feet from the scene of the accident and in a dying condition.

Moranha was quickly placed in the police ambuleace and harried to the Queen's Hospital. It is believed that his injuries are fatal though it was stated at the hospital last night that the injured man has a fighting chance for recovery. Moranha, says Dr. Frederick Morong, the attending physician, is suffering from a fracture at the base of the skull. His face is badly torn, indicating that he fell with full forces on his head and face.

According to Motorcycle Officer Ferman and the sum of the displacement of the circumstances for the Texas newspapers.

ou his head and face.

According to Motorcycle Officer Ferry, who made a full investigation of the accident, Moranba was on the extreme right side of the Walkilki road near what is known as the Waikiki awitch. He was riding slowly toward the city, the Welsh cur approached from the car and also was on the right band side of the road halfway between the car tracks.

Welsh was taken to the police station London expressed great admiration for where he was released an hour later on the army of occupation under General his own recognizance. The sheriff stat-ed last night that in the event of Mo-ranha not recovering from his sections, that Weish will be arrested on a charge CHIPA

that Welsh will be arrested on a charge of mansinghter.

Officer Perry is of the opinion that the car was traveling at a much higher rate of speed than thirty miles an hour owing to the distance that the horse was thrown and the condition of the Welsh car. The entire front of the automobile was wrecked. The impact automobile was wrecked. The impact at the time of the accident was so at the time of

great that the bows supporting the top of the ear were snapped off.

Both Welsh and Reynelds maintain that they had used no liquor at any time during the course of their ride.

They state that they met Mrs. Dolly Gordon and Mrs. Mabel thest at eleven-thirty o'clock on Wednesday night. The two women are strangers in Hanglulu and were the guests of Welsh.

Well-Known Author Denies That He Has Written Anything Denunciatory of Army.

Jack London, the sindustrious author, Jack London, the sindustrious author, is in print with a denial. London says he has been misrepresented and made the victim of somebody's mendacity. The trouble occurred a short time sgo, when a number of cards were distributed along the Pacific Coast, some even reaching Hawaii, setting forth a denumination of the Army and the men of whom it is composed. The article was couched in the language and atyle of an I. W. W. agitator, and because of London's well-known secialistic tendencies and utterances it was readily believed that he was the author as well as the siguer of the article.
